As a member of the Park and Recreation Commission one must process a vision for the future and the organizational skills to implement these ideas with constant effort to continue this sense of community that we enjoy here in Morro Bay. Due to my experience in teaching, athletes and Park and Recreation I believe that I have that vision and organizational skill to be a huge asset to Morro Bay.

The following experiences I believe will demonstrate that I have the vision and the skills.

- Chairperson of South Pasadena H.S. Social Studies Department: Creating and expanding opportunities for students to learn.
- Track and Cross Country Head Coach: expanding the program from 50 to 110 student athletes.
- Assistance Varsity Baseball coach at South Pasadena H.S.

**Parks and Recreation Commission Application –
Karen Robert – Statement**

The mission of the Recreation Department for the City of Morro Bay states that they “*are committed to providing quality recreational services necessary to live a healthy and enriched life...and that programs strive to build wellness in people, families, and the community.*” Anyone who serves on the Recreation Commission would benefit from sharing those same values.

I have enclosed my resume so that you can review my qualifications. I have enjoyed an active volunteer and professional work life that has allowed me to interact with a diverse community, and continue my basic philosophy of the importance of community involvement. I have vast experience in programming activities, working effectively with people and facilitating groups, problem solving, visioning ideas and follow-through. In reviewing my qualifications, you can see that my experience both professional and volunteer, have led me to be a leader in whatever I put my energy towards.

I have always believed that the purpose of life is a life of purpose that involves serving others. I also believe that what I have accomplished and continue to contribute helps to serve the greater good – my community. I have received great joy from my work and my volunteer involvement. Even though I bring some past experience to the Recreation Commission, having served previously in 1994-95 and again in 1996-2000, I recognize that this is a time of important change and growth for the Department of Recreation. I would love to be apart of that transition.

The following is a short statement of my background and interests, which I believe qualify me for consideration (attach additional page(s) as necessary):

As a resident of Morro Bay for the past 8+ years and a member of various chapters of the Sierra Club (Los Angeles, Orange, San Joaquin and San Luis Obispo Counties) for more than 20 years, I value the benefits of outdoors activities and many forms of recreation, i.e. an integral part of children and youth's education. Besides contributing to health and well being, such activities help participants gain skills like team work and build camaraderie. Those activities are also crucial for those youth that would otherwise lack structured after school activities before adults get home.

Public Works Advisory Board (PWAB)

Harbor Advisory Board: Please circle choice below:
Waterfront Leaseholder Recreational Boating

- Recreation & Parks Commission
- Citizen Oversight Committee (Measure Q)/Citizens Finance Committee
- Tourism Business Improvement District Advisory Board
- WRF Citizen's Advisory Committee
- Representative to SLO County Tourism Marketing District Board
- General Plan/Local Coastal Program Advisory Committee (GPAC)

Application Deadline: Friday, May 1, 2015 at 5pm

Applicants should be present in order to be interviewed by the City Council.
Interviews will be held on Monday, May 18th at 5:30pm.

The following is a short statement of my background and interests, which I believe qualify me for consideration (attach additional page(s) as necessary):

Please see the attachment for my complete statement. I am most interested in serving on the GPAC but would consider a spot on the Citizen's Finance Committee as a second choice.

Also, my daughter is due to deliver a baby in Denver on or about May 15th, so attending the May 18th interview session may be an issue. I will make all reasonable efforts to attend; I would still like to be considered if I cannot make that meeting and would be happy to either participate by telephone (if possible) or be interviewed at another time. My apologies for the potential scheduling issues.

I have read the statement regarding the responsibilities of this Commission, Advisory Board, Committee, and should I be appointed, I will be able and willing to devote the necessary time to perform the required duties.

**STATEMENT OF BACKGROUND AND INTEREST
FOR ADVISORY COMMITTEE POSITIONS
Susan R. Schneider**

BACKGROUND

Professional background

- Owner and Principal of Phoenix Consulting, Inc., an independent energy-consulting company based in Morro Bay, for 15 years
- Thirty-five years in the electricity and natural gas business, including prior position as VP of the company that runs most of the California electric transmission grid
- Expert on power-sales contracts and new-generation grid interconnections – mostly for renewable-energy developers – and wholesale market rules.

I have extensive and deep knowledge of commercial business practices and contracts, and a long history of successfully concluding win-win bilateral and multi-party negotiations.

Past community activities

- Homeowners Association President, Vice President, and Architectural Control Committee member for several years, in the Sacramento area
- Soccer Commissioner for city league in the San Francisco Bay Area

These positions required knowledge of finance, municipal building and traffic codes, and maintenance and insurance requirements. I was able to accomplish the required duties while managing the expectations and emotions of many diverse personalities and groups.

Current community activities

- Estero Bay Newcomer's Club member, and organizer/participant for several affiliated social activity groups
- Avid local "urban hiker" and kayaker

Educational background

M.A. in Regulatory Economics, New Mexico State University

B.S. in Quantitative Economics, Cal Poly SLO

Certification from UC Berkeley Executive Program in "Marketing for Service Industries"

STATEMENT OF INTEREST

I have lived in Morro Bay for 8 years and closely follow local planning and finance debates. I am familiar with current controversial issues (including waterfront development, neighborhood preservation, the water treatment plant, and the proposed wave-energy test facilities), and I am knowledgeable about rules governing real estate, finance, construction, and energy.

I want to ensure that people and businesses in Morro Bay have freedom and incentives to develop and upgrade their properties (and increase our tax rolls) in an economically and environmentally sustainable manner, consistent with the city's charming and quirky character. My extensive electricity-industry experience should also allow me to contribute to discussions about the many financing and planning issues related to the future of the Dynege power plant site.

Generally, I would like to see more investments in amenities that serve both tourists and local residents, like the improvements to the pathways to Morro Rock.

Dana Swanson - TBID Board Vacancy

From: Fred K Reed <[REDACTED]>
To: <dswanson@morro-bay.ca.us>
Date: 4/3/2015 8:58 AM
Subject: TBID Board Vacancy

Dana Swanson

Hello my name is Fred Reed. I sent in an application for the TBID Board vacancy. I realized that I did not go into any depth in regards to my qualifications. As I have not met many of the people involved in the decision making process I felt that I should elaborate. I will try to be concise.

I have been involved in opening:

- The Inn at Morgan Hill (Currently the Ramada)
- The Hilton Garden Inn Cupertino
- The Hilton Garden Inn Livermore
- The Hilton Garden Inn Mountain View
- The Inn at Scotts Valley (Currently the Hilton)
- The Courtyard by Marriott Paso Robles (Lead and Mgmt. Co. Owner)

I have also managed:

- The Opal in San Francisco
- The Pine Inn in Carmel
- Inn at Morro Bay

I have my Degree from the Kemmons Wilson school of hospitality at the University of Memphis.

I moved to Paso Robles in 2006. I worked with Jim App (Paso's City Manager) to successfully open the Courtyard. While in Paso I worked with Mr. App and other Hoteliers on many issues that affected the community.

I also have many family members that come from the Government side. My mother was County Executive for Santa Clara County and Los Angeles County.

I have a unique understanding of how Government and Industry can either work together or be at odds. Any other questions you or anybody may have feel free to use the number at the bottom, it is a cellphone.

Thanks for your time.

Mayor and Council members

My name is Rich Buquet. I am pleased to submit my application for consideration to the General Plan/Local Coastal Program Advisory Committee. (GPAC). I understand that this is a 3 year commitment and I am ready to accept that obligation.

I am retired from the City of Escondido after 23 years. My previous 20 + year career was as a self employed Home builder in Colorado. I continue to hold a contractor's license in the state of California.

I retired as the manager of Neighborhood Services for Escondido. I worked in that division for 18 years. Prior to that, I was in the building department for 5 years working counter, plan checking, and inspections.

Working as manager of Neighborhood Services is the experience that I feel would be an asset for the GPAC committee. My staff and I organized 18 neighborhood groups in the City. I oversaw a budget that averaged \$2,000,000 annually, fully funded by HUD/CDBG. Part of my responsibility was to prepare and submit a 5 year consolidated plan to CDBG headquarters for review and approval. The consolidated plan is our outline for our 5 year proposed programs utilizing CDBG funds. It is similar to the structure of a local General Plan but for a shorter period.

I am looking forward to this challenge

Robert Fuller Davis – GPAC Resumé - continued

Career

I was a Planner during my last six years at Caltrans working in the Sacramento Rideshare Office.

CTAC

Since 2002 I have represented the City of Morro Bay to San Luis Obispo Council of Governments as a member of the Citizens Transportation Advisory Committee, CTAC. Duties include – Review, comment and recommend action on: Regional Transportation Plan and Sustainable Communities Strategy; San Luis Obispo County 2040 Population, Housing & Employment Forecast; Regional Housing Need Allocations; Community 2050 Regional Visioning Study to plan for long-range regional growth; North Coast Scenic Byway Corridor Plan; Salinas River Trail Master Plan; Highway 101 Corridor Study; and numerous regional and special planning studies.

I was Vice-Chair of the Committee for two years and Chair for two years.

County Bike Plan

I chaired the County Bicycle Advisory Committee that developed and wrote the County's 2010 Bikeways Plan update and I am currently working on the subcommittee to update on the 2015 Bikeways Plan.

City Bike Plan

I served on the Public Advisory Committee for Morro Bay's 2011 Bicycle & Pedestrian Master Plan. I reviewed the draft plan, provided input and recommended implementation actions.

Mayor Irons and City Council
City of Morro Bay
595 Harbor Street
Morro Bay CA 93442

Dear Mayor Irons,

I have attached my application for a position on the General Plan/Local Coastal Program Advisory Committee. I believe that I am qualified to serve on the Committee and to help the City produce an updated GP/LCP within its time goal of three years.

I will be out of town during the month of May and most of June and so will not be available for interview on May 18. I understand that my absence from the interview may disqualify me for appointment to the Committee but I am submitting my application nevertheless. I really want to serve on this Committee and if there is a way to do so, I wish to be appointed.

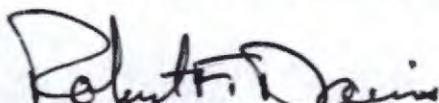

A few thoughts that I have on the process –

- First step for GPAC must be to gather public input as to values and vision, such as neighborhood compatibility, viewshed protection, small town atmosphere, scenic surroundings, open space/greenbelt and more.
- We should review Beach Street and North Main Street Specific Plans with a view of folding them into the GP/LCP.
- We should review LAFCO's 2007 update of our Spheres of Influence, particularly along the Highway 41 corridor.
- We need to develop a vision of our Downtown and Embarcadero business areas. Parking will be a hot button issue. We can develop smart parking policies and strategies that will help drive business activity.
- In addition to the specific mandatory GP/LCP elements, we should incorporate Water Resources and Economic elements. They are both essential to the survival of our city.

I am familiar with the planning process, terms and nomenclature. I have studied principles and practices of California planning and of economic development because I know that the two are related and both are essential elements for our city's survival.

I have worked closely with the Morro Bay business community during the past two years and I have a good understanding of their needs and challenges. I want to bring that knowledge to the process of updating our general plan and helping our city to survive and grow.

Thank you for your consideration.

General Plan Advisory Council Application

Statement of Background and Interest

My reasons for desiring to participate on the General Plan Advisory Council, and for believing I have value to contribute, are both personal and professional.

On a personal level, Morro Bay is my home. We currently own two residences in North Morro Bay, a primary residence and a rental property. It is my hope that this will be my children's home into the future. Passionate about the outdoors, I am a lifetime camper, surfer, hiker, backpacker and gardener our natural resources are sacred to me. As a LEED Accredited Professional, I have an understanding of how our built environment impacts our natural resources, and of the benefit of a sustainable approach to planning and design. The value of our sense of place and the environmental assets we enjoy in Morro Bay are invaluable.

Having raised two young children as a single parent, the need to meet the needs of all income levels and family structures in our neighborhoods, and in the provision of public services is a priority. As a working musician and an artist, it is my belief that accessibility to art in public spaces, venues and through our cultural assets also impacts both our quality of life and our economy. Finally, as a civic entrepreneur, I believe that a thriving community continues to evolve, and that citizens should participate in that crafting of that vision. Protecting our natural resources and quality of life, while maintaining a healthy economy and meeting community needs, is a critical role of our General Plan policies. It is important to maintain a well-balanced perspective when evaluating these issues, which often seem to be in opposition to one another.

Professionally, my experience spans 30 years in the real estate development industry, including planning, design and construction of multi-family senior housing, single-family planned unit and detached housing projects, and all suites luxury hotels. My career also included a number of years at a civil engineering firm where I was responsible for land use feasibility studies, oversight of environmental analysis and mitigation, and the processing of environmental, land use and building permits. For a brief time I also had the honor of working for the City of Morro Bay as Housing Coordinator overseeing the HOME and CDBG grant programs, and the integration of sustainable design into those processes.

From an economic perspective, as sole proprietor of Core Values Consulting, a firm which offers administration, finance and project management services, I understand the unique challenges of small business owners. More recently, as Program Manager for the Economic Vitality Corporation my focus has been oversight of the County's Economic Strategy implementation project, working with a variety of industries and business leaders on a broad range of economic initiatives. This has broadened my understanding of the relationship between our economic goals, the needs of our workforce and our land use policies.

The General Plan will set the stage for our future. I would like to bring my expertise and passion to bear, and to be a contributor in those discussions.

Please see the attachment for my complete statement. I am most interested in serving on the GPAC but would consider a spot on the Citizen's Finance Committee as a second choice.

Also, my daughter is due to deliver a baby in Denver on or about May 15th, so attending the May 18th interview session may be an issue. I will make all reasonable efforts to attend; I would still like to be considered if I cannot make that meeting and would be happy to either participate by telephone (if possible) or be interviewed at another time. **STATEMENT OF BACKGROUND AND INTEREST
FOR ADVISORY COMMITTEE POSITIONS
Susan R. Schneider**

BACKGROUND

Professional background

- Owner and Principal of Phoenix Consulting, Inc., an independent energy-consulting company based in Morro Bay, for 15 years
- Thirty-five years in the electricity and natural gas business, including prior position as VP of the company that runs most of the California electric transmission grid
- Expert on power-sales contracts and new-generation grid interconnections – mostly for renewable-energy developers – and wholesale market rules.

I have extensive and deep knowledge of commercial business practices and contracts, and a long history of successfully concluding win-win bilateral and multi-party negotiations.

Past community activities

- Homeowners Association President, Vice President, and Architectural Control Committee member for several years, in the Sacramento area
- Soccer Commissioner for city league in the San Francisco Bay Area

These positions required knowledge of finance, municipal building and traffic codes, and maintenance and insurance requirements. I was able to accomplish the required duties while managing the expectations and emotions of many diverse personalities and groups.

Current community activities

- Estero Bay Newcomer's Club member, and organizer/participant for several affiliated social activity groups
- Avid local "urban hiker" and kayaker

Educational background

M.A. in Regulatory Economics, New Mexico State University

B.S. in Quantitative Economics, Cal Poly SLO

Certification from UC Berkeley Executive Program in "Marketing for Service Industries"

STATEMENT OF INTEREST

I have lived in Morro Bay for 8 years and closely follow local planning and finance debates. I am familiar with current controversial issues (including waterfront development, neighborhood preservation, the water treatment plant, and the proposed wave-energy test facilities), and I am knowledgeable about rules governing real estate, finance, construction, and energy.

I want to ensure that people and businesses in Morro Bay have freedom and incentives to develop and upgrade their properties (and increase our tax rolls) in an economically and environmentally sustainable manner, consistent with the city's charming and quirky character. My extensive electricity-industry experience should also allow me to contribute to discussions about the many financing and planning issues related to the future of the Dynegy power plant site.

Generally, I would like to see more investments in amenities that serve both tourists and local residents, like the improvements to the pathways to Morro Rock.

I am a Political Scientist by training, and I have worked extensively in governmental and non-profit organizations doing research and policy analysis on a variety of issues that required critical analysis and attention to detail. I have analyzed and drafted proposals for state-level legislation, which translates into comfort with formal documents like the general plan/local coastal plan. I am currently active in several volunteer organizations in Morro Bay that focus on beautification, historical preservation, and land use. My main interest in the GP/LCP process is to help create a planning guide that will allow us to maintain and maximize the quality of life of our residents (and visitors) through intelligent place-making and land use development.

I have read the statement regarding the responsibilities of this Commission, Advisory Board, Committee, and should I be appointed, I will be able and willing to devote the necessary time to perform the required duties.

I now serve on PWAB, and in the past served the City of Folsom General plan review as circulation / traffic committee chairman. Our committee reviewed current traffic flow and projected future flows including what annexation of a large area south of Folsom would do to local streets.

Many of the conditions we put on growth were tied to having enough water to support growth. Folsom now has a very robust tax base and support many community activities as a result including performing arts, community college annex, bike trails and more. It is my believe Morro Bay is in a similar position, in that we must carefully plan for inevitable growth including where to park visitors in our Amazing Destination.

I have read the statement regarding the responsibilities of this Commission, Advisory Board, Committee, and should I be appointed, I will be able and willing to devote the necessary time to perform the required duties.

While I do not live in Morro Bay full time, I am committed to the success of the community. As a practicing urban planner, I am well aware of the importance of a high quality, thoughtful general plan and local coastal plan, to the long term health of the City. From 1999 to 2004 my career consisted almost entirely of leading General Plan update processes at The Planning Center in Orange County (now Placeworks). I understand the mechanics, the content, and the significance of the General Plan as an expression of the long term vision of a community. I hope to live in Morro Bay full time one day, and therefore would like to contribute what I can today to support the development of a Plan that will serve as a strong foundation for the City's future. My resume is attached for your consideration.

Interviews will be held on Monday, May 18th at 5:30pm.

The following is a short statement of my background and interests, which I believe qualify me for consideration (attach additional page(s) as necessary):

I have been a resident since 1988 and have owned a business on Morro Bay Blvd since 2006. I have also worked locally in the construction industry as a house painter, and in cultural resource management as an archaeologist and ethnologist, have worked on EIR's, prepared portions of CEQA reports, and done historic and prehistoric research in the area. I have been a member and chairperson of the Morro Bay Community Promotions Committee, as well as the Chamber Board, Merchant's Association, LEAP program, participant on the Morro Bay High School Management Team and a 4-H leader. My two children were born and raised in Morro Bay. I would like it to be a community they can some day come home to, find decent jobs, affordable housing, and the same safe and friendly town they grew up in.

I have read the statement regarding the responsibilities of this Commission, Advisory Board, Committee, and should I be appointed, I will be able and willing to devote the necessary time to perform the required duties.
